ENGLISH TEST 45 Minutes-75 Questions

DIRECTIONS : In the five passages that follow, certain words and phrases are underlined and numbered. In the right-hand column, you will find alternatives for the underlined part. In most cases, you are to choose the one that best expresses the idea, makes the statement appropriate for standard written English, or is worded most consistently with the style and note of the passage best as a whole. If you think the original version is best, notoes "NO CHANGE." In some cases, you will find in the right-hand column a question about the it, underlined part. You are to choose the best answer to the question.

You will also find questions about a section of the passage or about the passage as a whole. These questions do not refer to an underlined portion of the passage, but rather are identified by a number or numbers in a box.

For each question, choose the answer you consider best by selecting circle for that answer. Read each passage through once before you begin to answer the questions, you must read several sentences beyond the question to determine the answer. Be sure that you have read far enough ahead each time you choose an alternative.

Take Practice Tests

In the **Practice Tests** tab, you can take a full-length practice test on paper or online. You can use a timer like on the real test or take it untimed to get a feel for what to expect. Retake the test as many times as you'd like and track your progress over time.
